

Moon
(2009 Sundance Film Festival)

**After three years in space, Sam Bell,
Realizes that he is in a different hell.**

One he would Love to Erase

But in this case-

It is one that duplicates.

This story of memory and identity

Possess various nonentities

That will visually thrill ones eyes.

And so

I must say I have never grown to like a robot

But in this film, "Why not?"
